Introduction

Benbro is a leading contract electronics manufacturer specializing in the design, development, and production of mission critical electronic products. Our products are used in various industries including telecommunications, defense, medical, industrial, and consumer electronics.

We pride ourselves on our ability to provide customized solutions to meet the unique needs of each of our customers. Our commitment to quality, innovation, and customer satisfaction has earned us a reputation as a trusted partner in the industry.

Core Competencies

Product Design and Development

Working closely to meet our client's needs, Benbro offers in-house design and engineering capability to develop bespoke and off-the-shelf designs. These are carried through to prototyping, pre-production and full scaled manufacturing in our local factory.

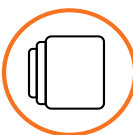

Manufacturing

Our production team comes with years of experience, offering full-scale manufacturing capability including; prototyping, electro-mechanical assembly, cable harnesses, PCB manufacturing, testing and certifying. All conducted to ISO 9001 Certification and Electrical Safety Standards.

Quality Control

Benbro is ISO 9001:2015 certified. In conjunction we follow continuous improvement protocols and can boast 99.99% customer satisfaction for product quality, reliability and on-time delivery.

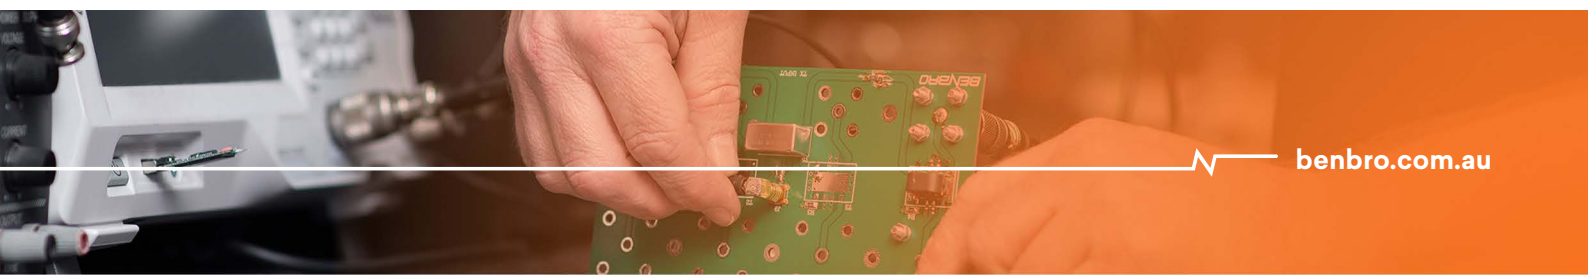

Supply Chain Management

To meet our customer requests for quick turn-around, we have a wide range of supplier relationships delivering fast supply high-quality components from around Australia and the world, ensuring consistent and fast delivery.

Customer Service

We have a dedicated customer service team that is available to provide support to our clients throughout the product development and production process. Benbro also offers full service and warranty support.

Products & Services

Custom Electronic Design & Development

Our team of experienced engineers and designers work closely with our clients to develop innovative and customized solutions that meet their specific needs.

Product Testing & Certification

We offer product testing and certification services to ensure that our products meet industry standards and regulations.

Electronic Manufacturing Services

We offer electronic manufacturing services to produce high-quality electronic products at low to medium scale.

Prototype Development

We can provide prototyping services to help our clients test and refine their product ideas before moving into full-scale production.
